File No 3705 S 2459 of 194

General and Revenue Secretariat

Serial No

From the Chairman C & T Board Mysore
S.4 128/46-47 dt 13-11-46
States that the Mysore city Municipal Council has to pay Rs 99,650 towards cost of underground drainage scheme during the year 1946 and requests sanction to the scheme costing Rs 20 lakhs and a grant of Rs 3 lakhs being allotted for the purpose during the current year

b) The Chairman, Mysore C & T Board has forwarded a five years programme relating to the scheme for laying underground sewers to Mysore city The entire scheme costs Rs 20 lakhs The Trust Board is agreeable to finance the scheme to the extent of Rs 5 lakhs, out of the New Extensions Funds

Flag 'A'

(1) The Mysore city Municipal Council has pleaded its inability to meet any portion of the expenditure on account of its low financial position

5) The Chairman, Mysore C & T Board has therefore requested the Government to sanction the scheme for laying underground drainage to the unsewered areas of the Mysore city at a cost

of Rs 20 lakhs

2) The Scheme being financed by the Government to the extent of Rs 15 lakhs at the rate of Rs 3 lakhs per year

3) to allot and a grant of Rs 3 lakhs for the current year, for the purpose

9) It is seen that from the year 1904, a sum of Rs 20,50,000/ has been spent on the several drainage works in the Mysore city out of this the Mysore city Municipality is said to have found a sum of Rs 99,650- It is observed that half the area of the city and extensions, still remains uncovered

10) In the case of the Bangalore city Municipality, Government is meeting half the cost of the Scheme and the other half is borne by the city Municipal Council

11) The proposals noted in para 8 supra are for orders

12) what is the amount of drainage cess that is being collected every year in the Municipality for the last three years? Statements regarding to Budget of the City for the

20/11/48

NOTE—Contn Sheet

1 The ~~average~~ income under the Drainage cess in the Mysore city Municipality, is noted below:-

	Rs
1943-44 —	6826
1944-45 —	7384
1945-46 —	6500
1946-47 —	7000 — (as sanctioned)

14 Leaving out of consideration the cost of the drainage in the cotton area amounting to Rs 5 lakhs, the total amount required for the city is 15 lakhs The H.E.C. pleads inability to pay any portion of it and the Trust Board want the Govt to pay the entire cost

15 Hence it is requested that an amount of Rs 3 lakhs may be given by the Govt towards the underground drainage work in connection with the work may be completed in 5 years according to the programme sent up

16 In the case of Bangalore city, the cost of underground drainage works has been shared by the City & the Govt - Of the Mysore city H.C. were to agree hereafter to meet a moiety of the cost by raising a loan or otherwise, then the question of the Govt paying the other half may be considered It would anyhow be difficult for the Govt to finance the entire scheme out of State funds

To The Chairman, C & T Board, Mysore

Kgs 6, dt 8-1-47

Calls for the inform

From the Chairman, C & T Board Mysore

D 3-C 503 dated 25-4-47

States that the City Municipal Co. has agreed to meet half the cost of the underground drainage scheme of the old city, with a request that the entire cost of sewering new extensions be borne by the Government

32 The entire scheme of laying underground sewers for the unsewered areas in the Mysore city and its new extensions is estimated to cost Rs 25,04,617-

33) out of this, the Municipality has agreed to meet half the cost of the scheme for the old city - i e Rs 4,40,830-

34) A Sum of Rs 4,46,400- is proposed to be met out of the Extension Funds

35) The Chairman has requested Govt to finance the scheme to the tune of Rs 16, 17, 387- as detailed below.-

Name of the work	Amount of the estimate Rs
1) Vanni Lassuram —	3, 26, 557
2) Narasimharaja Mohalla —	2, 35, 000
3) Mavanhedy Polesiram —	68, 000
4) Niranjana Road ms gardens —	37, 000-
5) Outfall estimates of Vanniyilasa puram & Jayalakshmipuram —	2, 85, 000-
6) Outfall estimate of Jadayanpi —	1, 35, 000
Total — Rs	10, 86, 557
Add half the cost of the old City scheme —	4, 40, 830
Add establishment Charges to be borne by the Govt —	90, 000
Total Rs —	16, 17, 387

36) It is proposed to form a separate Sub Division with an Assistant Engineer and other establishment for the execution of the works at a cost of Rs 90,000- for a period of five years

37) It stated that all the estimates have been scrutinised by the Sanitary Engineer except the outfall estimates which are said to have been forwarded to the Director of Public Health for scrutiny

38) The concerned plans and estimates will be called for and sent to the Chief Engineer for Roads and Buildings for scrutiny and remarks

39) The Financial Branch will also be consulted as to the extent to which provision could be made for this work in the

H&H25 5 2020

Next years draft Budget under preparation

40) Refer paras 21 & 26 of the Notes Enclosed

(In 575) 41) The provision of underground drainage system is quite essential especially in the old city portion of Mysore as it would go a long way to improve the health of the residents of the area living in the congested localities of (1) Hunsur Mohalla, (2) Lakshmipuram Mohalla, & (3) Kamegowdanakoppal, (4) Udaya Sahasra Mohalla etc.

Although the first stage cannot themselves to a lump sum of Rs 16/7 Crs, yet it is necessary to take up the underground drainage work of the portion of the old city. The cost is estimated at Rs 8 Crs/1660 & the city will have agreed to meet half of it Rs 4/0330. The work maybe spread over a period of four years in the area

Mr Harding reports to the Board
materials such as cement &c, it
may not be possible to carry out
works during winter time: thus taking
up streets, repairs such as pipes &c
are would also enable the first &
most likely to provide the required funds
without much strain

Mr In regard to the laying out of the
unopened streets in the extension, the
Trust Board has to meet the charges out
of the Estate funds first: need not
necessarily proceed further than
should sufficient funds be available

44 Points for order —

1) The entire scheme for £250,000
need not be undertaken now, only
as it would consist of first to
complete which would have to be
legitimately met by the Estate
Trust Fund and as the proposed
Sanctuary is accorded to the Estate
up by the willful damage in the
portions of the City attained
Estate costing £87,000

3) Half the above cost will be met
by the Tynemouth City & the
first may [illegible] meet the
other half, as the Works in

A

45 It is neither feasible nor possible to take up the entire scheme pertaining to both the old City areas as well as new extensions to complete it within 5 years, due to the existing difficulty to secure the required materials such as cement etc., and their cost xx also is very high at present It therefore appears desirable to restrict ourselves for the present to the portion of the schem which relates to old portions of the city only The estimates relating to this portion of the scheme as mentioned in statement "B" enclosed with the Chairman's letter , would cost Rs 8,81,660/- and the Municipal Council is agreeable to bear half of this cost, while the Government , desired to bear the other half viz., Rs.4,40,830/-

9070/L

44 As these drainage works are very necessary in the old parts of the City, this portion of the scheme may perhaps be sanctioned, half the cost as indicated above being met by Government.

These works may be spread over for a period of four years, the expenditure to be incurred in each year being 2 lakhs - half of it by Government and half by the Municipality.

47) Whether the Government grant to be sanctioned is to be an outright grant is a point for consideration and orders.

48 The other portions of the scheme pertains to extensions - as mentioned in statements "C" and "D".

49 The works pertaining to statement "C" are estimated to cost Rs.4,46,500 and are to be worked out by the Trust Board from Extension Funds

50 Similarly the works mentioned in statement "D" pertain to Extensions and are estimated to cost Rs 10,86,557 and it is desired that this entire cost is to be borne by Government in addition to half the cost of Rs.4,40,830/- in respect of the works pertaining to the old City or Rs 15,27,387 in all.

51 It is not clear why so much of the cost is to be borne by the Government as these works have to be got done by the Trust Board.

52 So the sanctioning of works mentioned in statements "C" and "D" relating to the extensions may be put off until the drainage works pertaining to the old city, which by themselves cost Rs 8,81,66/- are completed.

53 The question of establishment charges amounting to Rs 90,000 for five years may be considered later, when the promised proposals from the Chairman are received. This sum of Rs 90,000 is included in the total cost of the scheme viz, Rs.25,04,617/- as indicated in statement "A"

Final Note by the Minister for Education and Public Health

Subject— Scheme for providing underground drainage works in Mysore City

A scheme for providing underground drainage in the Mysore City was taken up 40 years ago and the Mysore City Improvement Trust Board have so far spent about Rs 21 lakhs and have provided drainage to some parts of the City But many portions of the Old City and the old and new extensions comprising half the City are still without underground drainage The residents of the City are urging for the provision of this amenity for a long time and the Chairman of the City Improvement Trust Board has, in consultation with the City Municipality and the Sanitary Department, submitted for sanction of Government a comprehensive five-year drainage scheme estimated to cost Rs 24,14,617/- as detailed below -

Estimates for providing drainage for -

(1) Unsewered portions in the Old City - Mandi Mohalla, Lashkar Mohalla, Kannegowdanakoppal, Ediga Extension Blocks 2,3,4 and 5 and Industrial Suburbs, Adikarnatakapuram, Ediga Out-fall, and Construction of an additional septic tank in the Sewage Farm	Rs 8,81,660
(2) New Extensions - Bannimantap extension, Yadavagiri extension, Medars' Block extension and Paduvarahalli extension (Jayalakshmipuram)	4,46,400
(3) Old Extensions - Vanivilasapuram, Narasimharaja Mohalla, Manantody extension, Niranjanaraj Urs Gardens in Chamundi extension, Out-fall estimates of Vanivilasapuram and Jayalakshmipuram, Out-fall estimate of Yadavagiri	10,86,557
(4) Establishment charges	90,000
	Rs 25,04,617

As regards the cost of drainage in respect of unsewered portions of the Old city, the Municipal Council is agreeable to bear half the cost, namely, Rs 4,40,830 The Chairman states that

the estimated cost of the drainage in respect of the New Extensions has to be met out of the Extension Funds and that the -- balance, namely, Rs 15,27,387 may be met by Government as a special grant

In view of the dearth of the materials, such as, cement and iron required for the execution of the scheme, it is proposed to sanction for the present the work relating to the Old City estimated at Rs 8,81,400, this cost being met by the Municipality and the Government in equal proportions, the work being spread over four years and the Government share of the cost being paid to the Municipal Council on the actual outlay on the works during each year The question of forming a separate Sub Division for executing the works will be considered separately when detailed proposals are received from the Chairman

The Dewan-in-Charge and the other Ministers agree to the proposal and I solicit the gracious sanction of His Highness to the same

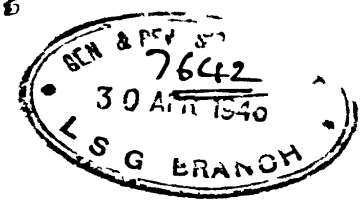
Office of the Chairman,
City Improvement Trust Board, Mysore

Dated 24th April 1946

From

R RAMACHANDRA RAO BHOMBORE, Esq , B A ,
CHAIRMAN,
City Improvement Trust Board,
Mysore



To

J B Mallaradhya, Esq , M A ,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Revenue Department, Bangalore

Sir,

In forwarding herewith the Resolution No 394 of the Trust Board at their Meeting held on 27th March 1946 approving of the scheme of underground drainage works of the City, I have the honour to state that more than half the area of the City including Extensions is still remaining unsewered The enclosed note and the statement furnish the details of unsewered areas with approximate cost for laying underground drains In the interest of public health and sanitation it is necessary that the underground drainage system is introduced to the whole City including Extensions as immediately as possible

From the statement enclosed it is seen that the cost of sewering the remaining portions of the City including the three new big extensions formed will approximately come to Rs 20 lakhs and out of this a sum of Rs 5 l could be met out of the funds of the three extensions namely Bannimantap, Yadavagiri and Paduvarahalli and the balance amount of Rs 15/lakhs will have to be sanctioned by Government for completing the scheme It is proposed to execute the scheme within a period of five years The Trust Board has resolved that the Government be requested to kindly sanction an annual gran of Rs.3 lakhs for a period of 5 years as it is not possible to meet this hea amount out of the normal grant to the Trust Board or the funds of the Munic pality

The detailed estimates of the above scheme are being worked out the special staff posted for the purpose and sanction of Government will be obtained as and when they get ready I request that the Government may kindly be moved for proving special funds for the scheme so that it may be worked out within a period of five years

P T O

(2)

The favour of early orders regarding the funds to be made available for the work is solicited

I have the honour to be,
Sir,
Your most obedient servant,

Chairman.

Subj - Underground drainage scheme —
Tirupur city

S.v,

With reference to your letter No D.3.
C - 335/45-46 dated 25-4-46, forwarding
for sanction the scheme of underground drainage
works in certain portions of Tirupur city and its
extensions, the scheme being financed to the extent
of Rs 15 lakhs by the Government, I am
directed to point out that this is a work to be
financed partly by the Tirupur city Municipal
Council - at least to the extent of half the estimated
cost - as in the case of the Coimbatore city
Drainage Scheme -

I am to request that information on the following
points may be kindly furnished :-

1) Amount spent so far on the Drainage

(5)

works in the Tipton city, till now and how much of it was met by the Govt, the Municipality and the Trust Board carried out

2) What portion of the proposed scheme the respective heads of the Municipal Council would meet?

3) the details of the five year programme and which works would be taken up, during the year 1966-67

The details have been furnished.

Yours in
Service

To

J B MALLARADHYA, Esq , M A.,
SECRETARY TO THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE,
Revenue Department, BANGALORE

SIR,

Sub Scheme for laying under ground sewers to Mysore city

With reference to your No L 13262 dated 28-5-46 calling for certain information regarding apportionment of costs between the Municipality and the Trust Board, I have the honour to state that the Mysore Municipality have expressed their inability to bear half the cost of the scheme and have requested the Trust Board to bear the entire cost of the scheme in their resolution No 1149 dated 4-7-1946, copy of which is enclosed Out of the total scheme of 20 lakhs, Rs 5 lakhs is proposed to be met by the Trust Board out of the New Extensions funds realised by sale of sites, as resolved by the Board in their resolution No 394 dated 27-3-46 (copy enclosed) and the Government is requested to sanction the balance amount of Rs 15 lakhs, the scheme being worked out in a period of 5 years at the rate of Rs 3 lakhs per year, in case the inability pleaded by the Municipality is to be approved by Government

As regards the amount spent so far on drainage works of the city a sum of Rs 20,50,000/- has been spent on several drainage works by the Trust Board, so far from the year 1904 and there remains more than half the area still unsewered The Municipality has been requested to intimate to what extent it has met the cost of the above works

I enclose herewith, the proposed five year programmes of the scheme for favour of information and I request that the Government may kindly be moved to sanction the scheme by providing special funds, as it is of urgent necessity to introduce under ground sewage system to the entire city in the interest of public health and general sanitation

The details for most of the estimates mentioned in the scheme have been worked out and are under scrutiny with the Sanitary Engineer, Bereau of Sanitary Engineering, Bangalore

Sir,

Subject:- Estimate for laying underground sewer line to Blocks 2 & 3 of Ediga Extension, Mysore, for Rs 40,000/-

---

With reference to your No L 61 dated 1st July 1946 returning the above estimate (which has been scrutinised for Rs 39,860/- by the Chief Engineer) unsanctioned, I have the honour to inform that the Municipal Council have ~~requested~~ resolved (vide No 815 dated 26-2-1946 copy enclosed) that due to paucity of funds in the Municipal Council, the entire cost of the estimate is to be met by the Trust Board and the Board also in their Resolution No 395 dated 27th March 1946 (copy enclosed) have agreed to the Council's Resolution Under the circumstances, the whole cost has to be met by the Board alone But the Trust Board cannot meet this heavy sum from their normal grant of the year and special grants are necessary

This Extension was formed over 30 years back, and the area is not sewered yet The residents are pressing for underground connections to their locality and I request that the estimate may kindly be got sanctioned early and special grants provided for

Favour of early sanction to the estimate is solicited

I have the honour to be,
Sir,
Your most obedient servant,

Chairman

My dear Mr Mallaradhya,

Please refer to the correspondence ending with this office letter No D 3 C-335/45-46 dated 25th April 1946 with which a five-year-programme of laying underground drains in the unsewered parts of Mysore City at a total expenditure of Rs 20 lakhs was submitted to Government with a request for special grants at the rate of Rs 3 lakhs each year during the next 5 years A provision of Rs 3 lakhs had accordingly been proposed for this work in the Budget of the Board for 1946- but the same was not approved by Government Parts of the City proper as well as the Extensions laid out during the past 30 years have not been sewered as yet From the sanitary point of view it is desirable to sewer these areas as soon as possible There have been repeated representation by the public for the construction of underground drains and the execution of the programme cannot without detriment to the general health of the City be put off any longer I would therefore request that Government may kindly be moved to accord very early sanction to the entire scheme of constr underground drainage in the unsewered parts of the City at approximate cost of Rs 20 lakhs spread over 5 years and to special grant for the commencement of the work during the current year of at least a lakh of rupees

Secretary to the Government of
His Highness the Maharaja of Mysore,
Revenue Department, Bangalore

Sir,

Subject - Scheme for laying underground sewers in Mysore City.

With reference to your No L 9565 dated the 8th January 1947 requesting to intimate the views of the Mysore City Municipal Council regarding sharing of moiety of cost of the above scheme, I have the honour to state that the subject was placed before the Municipal Council In their resolution No.693 dated 15-2-1947 the Municipal Council has agreed (copy enclosed) to meet half the cost of underground drainage scheme of the old City viz, Mandi, Ediga and Lashkar Mohallas, Kannegowdanakoppa, A K.Puram and other unsewered areas of the old City and have further stated that the entire cost of sewering new extensions be born by the Government ~~Executed~~

Detailed estimates for sewering the unsewered areas of the City have now been worked out and the total estimate works up to Rs 24,14,617/- vide statement A enclosed, exclusive of establishment charges, against an approximate cost of Rs 20 lakhs previously reported in this office No D3 C-335/44-45 dated 23-4-1946 The previous statement of 20 lakhs had been prepared on area basis before detailed surveys were conducted Some portions of the old City which had been omitted previously are now included in the estimate of Rs 24,14,617/- Out of this the Municipality has agreed to pay half the cost of the scheme for the old City portion viz, 4,40,830/- (Statement B) vide Resolution of the Municipal Council copy of which is enclosed and a sum of Rs 4,46,400/- (statement C) will be met from the extension funds and the balance of Rs 5,27,387 (statemend D) has to be borne by Government by special grants

The establishment charges are expected to amount to Rs 90,000/- excluding high price allowances (appen detailed Statement E) and the extra charges on account of revision of salaries to be probably sanctioned later on Since the estimated cost of the underground drainage work is nearly Rs 24 lakhs and it is proposed to be executed in the course of 5 years, a progress of 5 lakhs per year has to be shown To achieve this progress

(23)

and to ensure good and satisfactory work it is necessary to have the establishment as per enclosed statement E This may kindly be sanctioned The cost on account of the establishment will have to be met by the Government

All the estimates in the Statement No A have been scrutinised by the Sanitary Engineer excepting the out-fall estimates which have now been forwardded to the Director or Public Health with this office No 398 dated 10 3 47 for scrutiny and some of them have been submitted to Government for sanction by that office.

The residents of the unsewered areas in the old City are stating for the immediate underground drainage system and in the interest of public health and sanitation of the City it is necessary that the underground drainage system is provided immediately to all the unsewered areas of the City including newly formed extensions I request that the Government may kindly be moved for sanction of the scheme and also for providing special funds so that the scheme may be worked out in a period of 5 years

Favour of early sanction to the scheme is solicited

I have the honour to be,
Sir,
Your most obedient servant,

V. Venkatasubba Rao
